VINYL REMOVAL LIABILITY OF DAMAGE WAIVER

Due to many unknown factors, Colorado Signs cannot be held responsible for damage that has occurred prior to and/or during the vinyl removal process. Those factors include and are not limited to ::

- > Damage caused during the installation of the graphics, ie; knife marks, burns, and scratches.
- > Flaking or peeling paint/finish caused by road debris, bugs, pressure washing, poor repair work, accidents, etc.
- > Pre-existing paint damage that has been hidden or covered by the graphic.
- > Ghost images that are transferred from the graphic to the paint or substrate surface.
- > Tool marks, scratches, scrapes caused by the removal process. These typically occur when a graphic has been left on too long and the graphic becomes permanently bonded to the paint.
- > Chemical burns or stains caused by adhesive removal products or other cleaning agents. The chemicals used for vinyl/adhesive removal are usually safe for most finishes.
- > Single-stage painted finishes, powder-coat finishes, oxidized surfaces, plastics, and rubber are more susceptible to damage

Vinyl graphics have an expected life of 1-2 years for non-vertical applications and 3-5 years for vertical applications. Graphics that are left on longer than noted above are prone to have damage occur prior to and during the removal process. Note: Remove a graphic immediately if you notice a rapid color change/darkening or hairline cracking.

Colorado Signs employees are trained in removing graphics and will do their best to not harm the substrate surface during the removal process.

By committing to have **Colorado Signs** perform a graphic removal, you have accepted the **Vinyl Removal Liability Waiver** and agree to the terms required by the fact that there is a chance that damage to the substrate surface may occur. You are also waiving the right to hold Colorado Signs responsible for any damage that may occur during the removal process.
